

7.2 Best Practices

Best Practice I

Title: Bloom's Taxonomy

Objectives of the practice.

- i. To complete the course plan and the subject completion in a proper way.
- ii. Students are motivated to learn the newly innovated ideas and develop the skill of creativity.

The Context:

Blooms Taxonomy paves the way for the teacher and student to acquire different skills and get motivated.

The Practice:

Students are not only trained to be book-worms but also to improve their knowledge through the skills such as apply, analyze Evaluate, and synthesise. Through these skills students are able to acquire project oriented skills.

Evidence of success

Through the skills such as apply, analyze, Evaluate, and synthesis students are able to participate in national and international level project oriented competitions and exhibit their talents.

Problems Encountered and Resources Required:

The various levels of Blooms Taxonomy get blurred and confused at times. In the create level of Blooms Taxonomy, it is very hard to find students /learners really creating something new. Classroom training should be given to the learners to trigger the creative side of brain.

Best Practice II

Title: Department Association Programme.

Objectives of the practice:

- To share knowledge among student community.
- To improve the organizing and leadership quality of student.

The Context:

By conducting the association program in our institution, Student-staff relationship improves and they get a chance to exhibit their knowledge and their leadership quality.

The Practice:

Association program paves the way to create an interaction between student and faculty and also among the students. By conducting number of programs students are able to improve their skills and imbibe leadership qualities.

Evidence of success:

Association program leads the way to analyze the competitors' talent and also to be self-motivated and to take

part in various competitions further.

Problems Encountered and Resources Required:

We encounter certain difficulties in gathering students from different institutions for association meetings. Finance is also at times a difficulty. Financial resource should be made available when required.
